

## ***PERSONAL CARE: - SHOWERS***

### **Body Dryers**

**AskSARA**

Wall-mounted body dryers can be positioned in the shower cubicle or on the wall in a shower area. They produce a jet of warm air that can be used to dry a person so that they may not need to stand to dry all areas of the body.

## **“Shower Miser”**

“An automatic self controlled bathroom fan.

No need for a switch control.

By simply sensing the temperature of the hot water to a bath or shower, the unit detects when a shower is in use, automatically turning on an extractor fan.

Following the shower, as the pipe cools down, the fan is turned off automatically.”

<http://www.cookermiser.co.uk/>

---

## **Etac “Swift” Shower chair/stool**

“The modular construction of this stool/chair means it's highly adaptable, converting from a straightforward stool to a luxurious chair in moments. Even the seat is reversible: solid on one side with a cut-out on the other for easier personal washing.”

Gets a good write up – sturdy, versatile and can collapse to take on holiday.

## Washer brush for shower

**Tipbase Hjälpmedelsdatabas**  
En sökbar webbdatabas från Föreningen för de Neurosedynskadade

“The brush is firmly attached to a suction cup that can be fixed at any convenient height on a smooth wall. The brush is good to use when washing your hair, back or any other part of your body that might be difficult to reach.”
